

Summer Course 2022

Climate policy

Free Course

Exploring a Global, Transdisciplinary
Approach for the Future

Highlights

- The Schar School of Policy and Government at George Mason University, USA and the University of Rwanda's Center of Excellence in Biodiversity and Natural Resource Management partner to bring together American, University of Rwanda and University of Pretoria post-graduate students for the shared learning experience.
- The Course will be conducted by the Professors from George Mason University
- The course is completely virtual
- No registration fees
- Completion Certificate
- 10 best qualified students to be selected

Center of Excellence in
Biodiversity & Natural
Resource Management

Summer Course 2022

Benefits

- Explore some of the most consequential policy problems facing global warming and climate change and see how regions of the world are approaching and investing in future strategies
- Enhance understanding of climate change and climate policy
- Gain experience in multicultural learning by joining this summer course where you will study with students from USA and South Africa to build networking opportunities
- Hear from top climate thought leaders and visionaries, including senior policy makers, academics, cultural leaders, innovators, activists, and more.
- Certificate of completion
