The call for application for Certification Short Courses supported by AFRETEC base funding Project

The University of Rwanda (UR) is a member of African Engineering and Technology Network Universities (AFRETEC) by Carnegie Mellon University-Africa with other leading universities in Africa (University of Nairobi, The American University in Cairo, University of the Witwatersrand, University of Lagos) and supported by the Mastercard Foundation. AFRETEC aims to drive inclusive digital growth through higher education and the power of collaboration. Technology-focused universities from across the continent work together to build engineering and technology.

Through this program, University of Rwanda is organizing trainings for future skills in emerging technology fields thus University of Rwanda wishes to invite all interested university finalists, graduates, lecturers and other industry professionals to apply for the following fully sponsored short courses to be delivered at the University of Rwanda:

- AI/Machine learning taking place from 10th July 2023 to 21st July 2023
- Cyber security taking place from 7th August 2023 to 18th August 2023
- Networking taking place from 21st August 2023 to 1st September 2023
- Robotics and Drone Technology taking place from 18th September 2023 to 29th September 2023
- Big Data Analytics and Visualization taking place from 16th October 2023 to 27th October 2023
- Web services and API programming taking place from 13th November 2023 to 24th November 2023
- Embedded systems and programming taking place from 11th December 2023 to 22nd December 2023

Course Duration
Each of these courses will take place for two weeks with four hours per day.

Applicant Eligibility
The courses are designed for all interested final year undergraduate students/lecturers/graduates in Information Technology/Engineering/ Business Information Technology/Statistics and other related fields.

Application documents

The applicants should submit their CVs and academic documents through the application link

Award
Candidates who will successfully complete each of these courses will be awarded a certificate of completion.

Application process

To apply, please click on any Google form link depending on the course you want to attend:

SN	Training course	Application deadline	Registration link
1.	AI/Machine learning	30th June 2023	https://forms.gle/fgMQakChjgD8GmC7A
2	Cyber security	28th July 2023	https://forms.gle/PeSzjsEF2pwGxCJ89
3	Networking	11th August 2023	https://forms.gle/UCNVVb8h8ZekfFf97
4	Robotics and Drone Technology	8th September 2023	https://forms.gle/C8jGXnCuaJo5uFK76
5	Big Data Analytics and Visualization	6th October 2023	https://forms.gle/MTQj94GukbB1t5Qb6
6	Web services and API programming	3rd November 2023	https://forms.gle/xuTE1ZXKv3hE3dgn7
7	Embedded systems and programming	4th December 2023	https://forms.gle/f5AENMosNbrxF4xA7

Only selected applicants will be contacted.

NB: Female, refugees and people with disabilities are encouraged to apply.
