

**PhD STUDENTS STUDY PLAN**

**I. Executive Summary**

Every PhD student must submit an approved PhD Study Plan to his respective School, CoE or Research Centre through the School Postgraduate Studies Coordinator or the Head of PhD Studies. The PhD Study Plan must be approved by the Chair of the Supervisory Team (ST) and the subcommittee in charge of performance, the programme director and the head of department. The first semester is the time limit that applies to both full-time and part-time PhD students.

**II. Student Information**

Names: .....

Student Registration Number: .....

Degree Program: .....

E-mail Address:

Research topic:

**III. Description of the PhD project**

|   |
|---|
| a) Purpose                                    |
| b) Problem description                        |
| c) Background and Problem Statement           |
| d) Reflections on the theoretical approach    |
| e) Reflections on the methodological approach |
| f) List of relevant literature                |

#### IV. Time Schedule

| Period                                   | Activities planned for this period | Remarks by the Supervisor |
|--|------------------------------------|---------------------------|
| Semester 1<br>(from (date)<br>to (date)) |                                    |                           |
| Semester 2                               |                                    |                           |
| Semester 3                               |                                    |                           |
| Semester 4                               |                                    |                           |
| Semester 5                               |                                    |                           |
| Semester 6                               |                                    |                           |

#### V. Agreement on the type of supervision provided

The Chair of the Supervisory Team is responsible for the full PhD study. The procedure to be followed in the supervision must be clearly stated in the PhD Study Plan.

#### VI. Planned Modules and/or Professional Courses

| S/N | Module or Professional Course | Tentative Time |
|-----|-------------------------------|----------------|
|     |                               |                |
|     |                               |                |
|     |                               |                |
|     |                               |                |
|     |                               |                |

#### VII. Participation in active research environments

A tentative plan for stays at other research institutions, including institutions abroad.

**VIII. Teaching and knowledge dissemination**

A tentative plan for teaching and knowledge dissemination activities, including an outline of possible conferences and activities related to the PhD project

**IX. Agreements on intellectual property rights**

In case the PhD study is financed by external funds, an agreement regarding intellectual property rights must be signed

**X. Financing plan (budget)**

Expected expenses regarding the PhD study: Research field works, visits abroad, conferences, etc.

|               | Signature | Date  |
|---------------|-----------|-------|
| Student       | _____     | _____ |
| Supervisor    | _____     | _____ |
| Co-Supervisor | _____     | _____ |

**Dr Celestin NTIVUGURUZWA**  
*Acting Director, University of Rwanda Centre for Postgraduate Studies (UR CPGS)*
