

**REQUEST FOR EXPRESSIONS OF INTEREST
(TEACHING SERVICES-POOL OF TRAINERS)**

Sector: Higher Education, Public Health Sector
Financing Agreement reference number : **201568237**

Assignment title: Teaching services on the Master Degree in Health Supply Chain Management at the RCE-VIHSCM

The University of Rwanda (UR) has been tasked by the EAC to operationalize the RCE-VIHSCM under a financing agreement with the German Development Bank (KFW).

The goal of the RCE-VIHSCM is to contribute to solving existing performance challenges in Immunization and Health Supply Chain Management system in the EAC Region through the generation of knowledge and its translation into practice, policy and research.

In this regard, the centre is offering short-term training programmes and is running a 2-year Master degree programme in Health Supply Chain Management (blended training programme combining both face-to face, distance/online learning, field attachments and operational research).

We are currently having 29 students from the East African Partner States, Southern and West Africa. We intend to enrol two classes of 40 each in April and October 2019, respectively.

To leverage expertise from the global supply chain community, the Centre will use part of KFW funding to hire experts to deliver face to face sessions, online facilitation, supervision of field attachments and supervision of students' research projects.

The teaching services described under this **Expression of Interest (Eoi)** cover the following modules and the detailed modules description can be obtained upon request:

- Module 1: Introduction to Health Supply Chain Management
- Module 2: Health Products & Technologies selection, quantification and procurement.
- Module 3: Storage and distribution
- Module 4: Introduction to human resources management
- Module 5: Field attachment
- Module 6: Equipment Management

JSA

**EAC Regional Center of Excellence Vaccines, Immunization & Health Supply Chain Management
(EAC RCE-VIHSCM)**

- Module 7: Resources Management
- Module 8: Leadership and professional management
- Module 9: Strategic procurement
- Module 10: Field attachment
- Module 11: Applied research method
- Module 12: Optimisation of health supply chain management systems
- Module 13: Integration of new technologies in health supply chain systems
- Module 15: Applied research project (Masters Thesis)

The content for each module will be provided as well an orientation to the content prior start of the assignment.

The University of Rwanda (RCE-VIHSCM), invites eligible expert, to express interest in covering **one or more modules**.

Interested experts must provide information indicating that they:

1. Earned doctoral degree (PhD) in procurement, logistics and supply chain management, resources management, public health, pharmacy, with a working/training experience on health and immunization supply chain management. A Master's degree with more than 5 years working/training experience in immunization and health supply chain management, can be considered.
2. Have a proven experience with teaching and curriculum development in higher learning education. Experience in developing and delivering professional short courses may be considered.
3. Familiarity and experience with innovative teaching methods, such as team-based learning and problem-based learning, blended learning, formative assessment, peer instruction, or online learning
4. Track record of research productivity with peer-reviewed publications
5. Fluency in English required; French or Kiswahili language skills desired but not mandatory
6. Have the necessary skills (professional certification in specific topic area)

An attractive salary package and transport facilitation to/from Rwanda are provided for.

Interested experts may obtain further information from the address below during office hours 08.00 a.m to 5.00 p.m local hours.
