TUFTS-UGHE ONE HEALTH FELLOWSHIP PROGRAM

Eligibility and Application guidelines

The One Health Collaborative comprised of The University of Global Health Equity (UGHE), University of Rwanda (UR) and The Cummings School of Veterinary Medicine at Tufts University are inviting applications for the One Health Fellowship Program. The One Health Fellowship Program is a two-way global exchange program, designed to promote mutual understanding, enhance One Health leadership and professional skills, and build lasting and sustainable partnerships between Fellows, Rwandan institutions and various partners in the United States (US). With the One Health Fellowship program, we aim to create a network of One Health leaders through targeted One Health leadership training, deliberately crafted fellowship placements, and creation of strategic and sustainable partnerships that can use their professions to minimize public health threats in their countries and communities.

Eight candidates will be selected to participate in the 2019 One Health Fellowship program. The fellowship will take place in the US over a six-week period, from mid-May to the end of June. Fellows will spend four weeks at a US-based public health organization that is specific to their interests.
