

Call for application: Master of Science in Rehabilitation and Mobility Sciences offered by Centre of Excellence in Biomedical Engineering and e-Health (CEBE), University of Rwanda

The University of Rwanda, Regional Centre of Excellence in Biomedical Engineering and eHealth (CEBE) is conceived as the Centre that will provide leadership, intellectual capacity, and infrastructure required to accelerate the provision of cost-effective, technology-supported healthcare services in Rwanda and the East African Community (EAC) Region. The vision of CEBE is to build a critical mass of a qualified and transferable workforce to sustainably boost the Biomedical and Clinical Sciences sector with competent technical support skills, innovation, research and development capabilities, while putting in place a conducive environment for the development of a vibrant and dynamic service industry. The aim of the UR-CEBE is to develop highly skilled professionals who will lead and conduct research that impact the national and international regions in Biomedical Engineering, Rehabilitation and eHealth, Sectors.

In this context, CEBE invites applications from interested and qualified applicants wishing to pursue Master's of Science Degree in Rehabilitation and Mobility Sciences at UR-CEBE.

I. Entry requirements

The candidates should have a background in prosthetics and orthotics, physiotherapy, occupational therapy and general medicine. Related and interested professionals such as "social work" and others with relevant knowledge and experience, who have been working in non-clinical rehabilitation work and with experience of at least two years will be admitted after passing an interview and will be guided to the specialization of disability and rehabilitation services management and administration, which is non—clinical. The MSc in Rehabilitation and Mobility Sciences can be taken by any professional, who graduated with a Bachelor of Science degree in the above-mentioned rehabilitation disciplines with a Second-Class Upper Division and above, and at least two years of experience. To qualify for admission, candidates should have obtained a Bachelor's Degree with at least Second Class Upper Division in the aforementioned fields. Applicants with a Bachelor's Degree in the same areas and specializations with a Second Class Lower Division, and at least 2-years of relevant work experience may be eligible for admission into the programme. Female candidates are encouraged to apply.
