JOB ADVERTISEMENT FOR DATA COLLECTORS TO WORK ON RESEARCH PROJECTS

1. Background

The University of Rwanda is striving to become a research-lead University towards a worldwide research corps. To achieve this target, the faculty members are encouraged to initiate, plan and implement research projects that would contribute to knowledge in general and impact Rwandan socio-economic transformation;

Since the establishment of UR in 2013 up to now, the University has implemented several research projects in the areas of Health, Education, Environmental Management, engineering, economics and others.

In order to perform these research activities, the University of Rwanda needs a concrete data base of personnel with various education backgrounds to work with, depending on the nature of project and domain of research.

It is against this background that the University of Rwanda is seeking to have a pool of data collectors who will provide support from time to time as deemed necessary to work for a short period of time according to the nature of the project/study that has been recommended by the researchers or Principal Investigators as an alternative to frequent and repetitive recruitment processes which would lead to delay in delivery of projects objectives.

Therefore, the University of Rwanda's wishes to inform the General public that is recruiting a pool of data collector's in line with research domains currently active in the University of Rwanda. The table below shows the areas of interest in this regard.

2. Area and requirements

Domain	Research area	Requirements
Health	Public health	MPH, Bsc, A1 in Public Health; Community Health and Health Sciences
	Nursing	Msc, BSc, A1, A2 in General Nursing;
	Medicine	Mmed, MD, BSc in Clinical Medicine
	Midwifery	Msc, BSc, A1, A2 in Midwifery
	Pharmacy	Msc, BSc in Pharmacy
	Mental health	Msc, BSc, A1 in Mental Health Nursing, Clinical Psychology
	Nutrition	Msc, BSc, A1 in Nutrition
	Biomedical sciences	Msc, BSc, A1, A2 in Biomedical Laboratory
	Oral health	Msc, BSc, Dental Surgery, Msc, BSc, A1 in Dentistry
Agriculture	Crop science	Msc, BSc, A1 in Agriculture, Crop Science, Plant Biology
	Animal science	Msc, BSc, A1 in veterinary medicine and related animal sciences

Domain	Research area	Requirements
	Forestry	Msc, BSc, A1 in forestry
	Food processing	Msc, BSc, A1 in Food Technology, Microbiology, agri-business
Statistics	Statistics and data management	Msc, Bsc, A1, A2 in Statistics or IT
Economics	Data science and Statics	Msc, BSc in Data Science, Statics, Mathematics
	Business studies	Msc, BSc, BBA in Accounting, Finance and Economics.
Education	Education	Msc, BSc in Education
Environment and geography	Mining and geology	Msc, Bsc, A1 in Mining and Geology or related field
